Administrator, FOIA: Chief of Foreign Intelligence  
Sect 101 : Project AIS/ABUS/ABM/DP (renamed)

DECLASSIFIED AND RELEASED BY  
CENTRAL INTELLIGENCE AGENCY  
SOURCES/METHODS/EXEMPTION 3B2B  
NAZI WAR CRIMES DISCLOSURE ACT  
DATE 2007

1. PURPOSE: Through a joint CIA-SIS Center in Frankfurt, to develop and exploit the assets of the National Alliance of Solidarists (N.S.), an anti-Soviet emigre organization; and to obtain operational, positive, and psychological intelligence through the maintenance of communications with KGB agents inside the USSR. Some of these agents may be developed as long-term hot war assets.
2. FLAGSHIP: The Joint Center is in contact with 110 KGB agents inside the USSR. Communication is largely by S/A but A/I exists in a few cases. A member of the KGB agents have been imprisoned and later released. It is known that some agents are, and believed that other agents may be, KGB controlled. Shulsk/166, the KGB Deputy Chief of Internal USSR Operations, is responsible for handling contacts with KGB agents. Shulsk/166 previously worked for three years under PR Project AIS/ABU and is considered an imaginative, resourceful, and coordinated intelligence operative. He has shown a willingness to accept guidance from his CIA and SIS case officer. Shulsk/166 resides in the KGB covert headquarters outside of Frankfurt. He works under the cover of being a member of a foreign publications review unit.

3. LAST APPROVALS:

Action	Office	Period	Authorization

into the USSR. A third training cycle is planned to start in the last months of 1955.

As a result of conferences held between CIA and SIS in the past year each has been made aware of the others assets within USSR. It has been agreed to establish a joint CIA-SIS center in Frankfurt to coordinate all KPS traffic with existing and future internal USSR operations. Future training of US agents is to be carried out at a base located in the United Kingdom. This renewal provides for the requirements of agents already inside the USSR and for preliminary development and assessment of new agent candidates. The Project will be amended to provide for CIA's share of future endeavours.

**3. EVALUATION:**

- a. An informal check of ADM/AB's records shows that 27 reports were disseminated between July 1954 and May 1955 that were credited to this project. These reports dealt with a variety of subjects including Soviet penal camps, crop and food conditions, military installations, industrial plants, and vehicular numbers. Several reports were considered of value by customers and one report on penicillin production was evaluated of considerable value by OSI.
- b. The Headquarters Desk reports that one agent who is known to be KGB controlled has provided a valuable study in KPS techniques as well as a surprising amount of reliable, medium level intelligence.

**4. ACTION REQUESTED:** Personnel for the period 1 July 1955 through 30 June 1956 with authorization to obligate \$13,000 from the P/P/F - AB Division budget for the current fiscal year.
